

Tokyo Metropolitan University
Graduate School of Science
Application Guidelines for the 2020 Doctoral Program
<April Enrollment>

Examination: February 5 (Wed), 2020

Administrative affairs concerning entrance examinations of this Graduate School
are handled by the following office:

**Academic Affairs Section of Science,
Academic and Student Affairs Division of Sciences,
Administrative Affairs Department of TMU**
1-1 Minami-Osawa, Hachioji-shi, Tokyo 192-0397
Tel: 042-677-1111 (Representative) Ext. 3021

Admissions Policy of the Graduate School of Science, Tokyo Metropolitan University

The Graduate School of Science seeks individuals who have basic knowledge in natural science, a scientific attitude, and the enthusiasm to become researchers/educators/engineers with creativity and a broadly applicable skillset. Individuals such as these, who also have the ability and motivation to deliver research outcomes to the world are encouraged to explore our Doctoral program.

Department of Mathematical Sciences

[Master's program]

1. Policy

Mathematics have been provided the basis of natural science and played a fundamental role in its development, whose significance is more widely recognized in the present day. The department intends to undertake education and research in the 4 areas of mathematical sciences including algebra, geometry, and analysis (main fields of mathematics) plus applied mathematics, from a comprehensive position not bound by the field framework.

2. Our ideal students

- (1) Individuals with a basic understanding and awareness of various issues in mathematical sciences
- (2) Individuals capable of acquiring knowledge from a global perspective and willingly taking on challenges in research tasks
- (3) Individuals who are motivated to attain various abilities to solve problems

3. Abilities required in candidates

- (1) Fundamental academic ability of mathematical sciences and spirit of inquiry for the desired field
- (2) Fundamental ability of discovering and solving problems on their own initiative in the field of their choice

[Doctoral program]

1. Policy

Mathematics have been provided the basis of natural science and played a fundamental role in its development, whose significance is more widely recognized in the present day. The department intends to undertake education and research in the 4 areas of mathematical sciences including algebra, geometry, and analysis (main fields of mathematics) plus applied mathematics, from a comprehensive position not bound by the field framework.

2. Our ideal students

- (1) Individuals having deep and extensive specialized knowledge for their research in mathematical sciences

- (2) Individuals capable of carrying out ingenious and international research activities as an independent researcher
 - (3) Individuals having ability to evaluate objectively the significance of their own research and their positioning in society
3. Abilities required in candidates
- (1) Specialized knowledge in the field of their choice and academic ability to carry out their research
 - (2) Ability of discovering and solving problems on their own initiative in the field of their choice

Department of Physics

[Master's program]

1. Policy

The Department aims to develop persons who have basic knowledge and research skills in physics, which covers a wide range of phenomena in the natural world from elementary particles/nuclei and atomic molecules, materials with diverse structures, and to the universe itself. It also aims to develop those who can drive leading-edge scientific research in the next generation with a keen awareness of the social responsibilities involved in their research, and those who can solve various social and environmental problems on the basis of the fundamentals of science.

2. Our ideal students

- (1) Individuals who are inquisitive about acquiring basic knowledge in their chosen field of expertise, logical thinking skills, and practical research approaches
- (2) Individuals who are eager to acquire necessary abilities to solve problems, conduct research, hold discussions, present research results, etc.
- (2) Individuals aiming to become researchers, professional engineers, or educators in physics

3. Abilities required in candidates

- (1) Specialized knowledge in the field of their choice and extensive knowledge of physics
- (2) Ability to discover and solve problems using their own initiative in the field of their choice

[Doctoral program]

1. Policy

The Department aims to develop persons who have deep specialized knowledge and excellent research skills in physics, which covers a wide range of phenomena in the natural world from elementary particles/nuclei and atomic molecules, materials with diverse structures, and to the universe itself. It also aims to develop those who can drive leading-edge scientific research in the next generation with a keen awareness of the social responsibilities involved in their research, and those who can solve various social and environmental problems on the basis of the fundamentals of science.

2. Our ideal students

- (1) Individuals who are inquisitive about acquiring deep and extensive knowledge of basic and advanced physics
 - (2) Individuals who are eager to attain the ability to conduct research by formulating ingenious research plans, presenting original treatises in international academic journals, participating in international research discussions, and reporting research results and their significance
 - (3) Individuals aiming to become independent researchers or educators capable of carrying out international and distinguished research activities, with a keen awareness of the social responsibilities involved in their research
3. Abilities required in candidates
- (1) Deep specialized knowledge in the field of their choice
 - (2) Ability to contribute to academic development through the study of physics
 - (3) Excellent research skills with the capability to set pioneering research tasks on their own and the ability to complete these tasks in the field of their choice

Department of Chemistry

[Master's program]

1. Policy

The Department aims to develop persons who understand the structure, nature, and the reaction of substances at the atomic and molecular levels, and acquire the basic knowledge of as well as fundamental research skills of chemistry, which pursues to create a new substance by carrying out structural conversion of the molecule. It also aims to develop those who can drive leading-edge scientific research in the next generation with a keen awareness of the social responsibilities involved in their research, and those who can solve various social and environmental problems based on the fundamentals of science.

2. Our ideal students

- (1) Individuals who are keen to work on research towards elucidation of the structures, reactions, functions, and circulations of atom/molecule and its compound/assembly as well as synthesis of a new substance
- (2) Individuals who wish to deepen understanding of chemistry
- (3) Individuals who have a desire to improve research skills
- (4) Individuals who wish to develop global awareness through research to be able to perform internationally
- (5) Individuals who have a passion to work as a chemistry expert in the future

3. Abilities required in candidates

- (1) Broad range of knowledge of chemistry
- (2) Motivation for research towards elucidation of the structures, reactions, functions, and circulations of atom/molecule and its compound/assembly as well as synthesis of a new substance, and the ability to

pursue it

- (3) Ability of discovering and solving problems on their own initiative in the field of their choice
- (4) Ability of foreign language required to promote their research

[Doctoral program]

1. Policy

The Department aims to develop persons who understand the structure, nature, and the reaction of substances at the atomic and molecular levels, and acquire the deep knowledge of as well as excellent research skills of chemistry, which pursues to create a new substance by carrying out structural conversion of the molecule. It also aims to develop those who can drive leading-edge scientific research in the next generation with a keen awareness of the social responsibilities involved in their research, and those who can solve various social and environmental problems based on the fundamentals of science.

2. Our ideal students

- (1) Individuals who show enthusiasm in contributing to deepen the human knowledge of chemistry
- (2) Individuals who are inquisitive about acquiring deep and extensive knowledge of basic and advanced chemistry
- (3) Individuals aiming to become independent researchers or educators capable of carrying out international and distinguished research activities, with a keen awareness of the social responsibilities involved in their research
- (4) Individuals who are eager to attain abilities of conducting research by formulating ingenious research plans, presenting the original treatises in international academic journals, participating international research discussions, and reporting research results and their significances
- (5) Individuals who wish to develop global awareness through research to be able to perform internationally
- (6) Individuals who have a passion to work as an expert of chemistry with a high degree of specialization in the future

3. Abilities required in candidates

- (1) Deep specialized knowledge in the field of their choice
- (2) Motivation for research towards elucidation of the structures, reactions, functions, and circulations of atom/molecule and its compound/assembly as well as synthesis of a new substance, and the ability to advance it
- (3) Ability of foreign language required to promote their research

Department of Biological Sciences

[Master's program]

1. Policy

The department aims to help students obtain the skills to independently identify, investigate and solve

major questions in biological sciences at molecular, cellular and ecological levels. It further aims to host an environment which fosters the development of an international perspective and excellent communication skills. These scientific and communication skills will enable students to play an active leading role in both the domestic and international arena as researchers, educators, and developers.

2. Our ideal students

- (1) Show a keen interest in biology and the life sciences and are eager to take the initiative in research and the acquisition of specialized knowledge
- (2) Have a desire to attain research skills, planning ability, and performance capability through the study of biological science
- (3) Are passionate about making a contribution to society as researchers, educators, and developers possessing an international perspective and excellent communication abilities

3. Abilities required in applicants

- (1) A broad range of interests in biology and the life sciences, regardless of the university, faculty, or department they are from
- (2) The potential to use initiative in discovering and solving problems in biology, the life sciences, or related fields

[Doctoral program]

1. Policy

The department aims to help students obtain the high level skills to independently identify, investigate and solve major questions in biological sciences at molecular, cellular and ecological levels.. It further aims to host an environment which fosters the development of an international perspective and excellent communication skills. These scientific and communication skills will enable students to play an active leading role in both the domestic and international arena as researchers, educators, and developers.

2. Our ideal students

- (1) Pursue innovative, cutting-edge research in a field of the biological sciences
- (2) Exhibit a genuine desire to acquire specialized knowledge in the biological sciences, and develop the skills to plan and undertake research on the front lines
- (3) Are passionate about making a contribution to society as researchers, educators, and developers who are capable of playing an active leading role on the international stage

3. Abilities required in candidates

- (1) Specialized knowledge in the field of their choice and a broad range of interests in biology and the life sciences, regardless of the university, faculty, or department they are from
- (2) The ability to use initiative in identifying and solving problems in biology and the life sciences

Application Guidelines for the 2020 Doctoral Program (April Enrollment)

1. Number of Students to Be Admitted

Department	Number of students to be recruited
Mathematical Sciences	8
Physics	10
Chemistry	9
Biological Sciences	16

2. Qualification*

- (1) Individuals who possess a master's degree or are expected to receive one by March 31, 2020
- (2) Individuals who possess a Professional degree (professional degree as defined in Article 5-2 of the Degree Regulations (1953 Ministry of Education Decree No. 9) based on Article 104 Paragraph 1 of the School Education Act of Japan. The same applies to the following.) or who are expected to receive one by March 31, 2020
- (3) Individuals who have been conferred a master's degree or any other degree equivalent to a Professional degree in a foreign country, or are expected to receive one by March 31, 2020
- (4) Individuals who have completed an academic program offered by a foreign school by taking it via distant learning in Japan and have been conferred a master's degree or any other degree equivalent to a Professional degree
- (5) Individuals who have been conferred a master's degree or any other degree equivalent to a Professional degree upon completion of a course of study offered at a foreign educational institution that is positioned in Japan as offering graduate programs under the schooling system in the said foreign country and has been designated by the Minister of Education, Culture, Sports, Science and Technology
- (6) Individuals designated by the Minister of Education, Culture, Sports, Science and Technology (1989 Ministry of Education Notification No. 118) (Note)
- (7) Individuals who do not fall under any of (1) to (6) above, but who have been recognized by the Graduate School on the basis of individual screening for application qualification as having academic aptitude equal to or higher than those with a master's degree or a Professional degree

* Those who are applying under (6) or (7) above must undergo the application qualification screening. Please file the application following the rules stated on pages 7-8 of these Guidelines.

(Note) Those who apply under Application Qualification (6) must satisfy the following requirements:

- (1) Individuals who have engaged in research activities for 2 years or more at universities, research institutions, etc. after graduating from a university and are recognized by the Graduate School as having academic aptitude equal to or

higher than those with a master's degree on the basis of the research results

- (2) Those who have engaged in research activities for 2 years or more at universities or research institutions, etc., after completing either 16-years of school education in a foreign country or 16-years school education offered by a foreign school by taking it via distant learning in Japan, and who are recognized by the Graduate School as having academic aptitude equal to or higher than those with a master's degree on the basis of the research results

3. Application Qualification Screening

Applicants who fall under the following must undergo the application qualification screening:

- Those who apply under Qualification (6) or (7) above

<Application period>

November 7 (Thurs) to 14 (Thurs), 2019

The reception of the Academic Affairs Section of Science is available to receive the application documents on weekdays during 10:00 am - 12:00 pm and 2:00 pm - 4:00 pm only (excluding national holidays). If you send the documents by post, they must arrive no later than the last date of application period mentioned above.

<Documents to be submitted>

- Confirmation of qualification (*Designated form by the Graduate School)
- Certificate of (expected) completion of the last educational program attended
- Academic transcript of the last educational program attended
- A self-addressed envelope for notification of application approval/rejection (Standard-size, with 374-yen postage stamps affixed [express delivery fee included])
- Statement of purpose (A4, 1 page)
- Confirmation of educational background (*Designated form by the Graduate School)
 - * Please write down career and research experiences after the last educational program attended if any. If there are any documents certifying engagement in research work, etc. (for example, a paper, summary of presentation at an academic meeting, certificate of research participation issued by a research institute, and certificate issued by a thesis adviser), attach them as well.
 - * At the time of application, a certificate of (expected) completion and an academic transcript of the last educational program attended are not required to be re-submitted.

<Designated forms>

To obtain the designated forms for application qualification screening, either download from the Graduate school's website (http://www.se.tmu.ac.jp/entrance_exam.html) or send a request enclosing a self-addressed return-mail envelope (a standard-size, with an 84-yen postage stamp affixed) to the Academic Affairs Section of Science, Academic and Student Affairs Division of Sciences,

Administrative Affairs Department of TMU. Be sure to write down **in red “Request for application documents for qualification screening (Doctoral program)”** on the front left side.

<Place for submission>

Academic Affairs Section of Science, Academic and Student Affairs Division of Sciences,
Administrative Affairs Department of TMU

(Send by **registered express mail** and write down **in red “Documents for qualification screening for the Doctoral program enclosed”** on the front left side of the envelope.)

<Notification of result>

Notification will be sent out on **November 29 (Fri), 2019.**

<**Application procedure**>

Individuals who have received approval in the preliminary consultation shall proceed with the application in accordance with these Guidelines.

4. Request for Special Consideration Related to Physical Disability

If you would like to request for special consideration or arrangement related to physical disability at the time of examination or during school attendance, make a request in advance in the way explained below. To obtain a designated request form, either download from the Graduate School’s website (http://www.se.tmu.ac.jp/en/entrance_exam.html), or send a letter of request to the Academic Affairs Section of Science, Academic and Student Affairs Division of Sciences, Administrative Affairs Department of TMU together with a self-addressed return envelope (standard-size, with an 84-yen postage stamp affixed).

<Request acceptance period>

November 7 (Thurs) to 14 (Thurs), 2019

The reception of the Academic Affairs Section of Science is available to receive the request form on weekdays during 10:00 am - 12:00 pm and 2:00 pm - 4:00 pm only (excluding national holidays). If you send the form by post, it must arrive no later than the last date of request period mentioned above.

<Form to be submitted>

- Request for consultation regarding entrance examination for the Doctoral program at the Graduate School of Science (*Designated form by the Graduate School)

<Place for submission>

Academic Affairs Section of Science, Academic and Student Affairs Division of Sciences,
Administrative Affairs Department of TMU

(Send by **registered express mail** and write down **in red “Request for consultation regarding**

entrance examination for the Doctoral program enclosed” on the front left side of the envelope.)

5. Request for Adult Working Student Enrollment

Course registration style suitable for adult working students is available to those who fall under any of the items listed in “2. Qualification” on pages 6 - 7 of these Guidelines, and at the same time who have ever worked at the same company or research/ educational institution, etc. for more than 1 year by the time of enrollment and will be able to continue working for the current employer after enrollment with approval from the supervisor. If you wish to enroll as an adult working student, notify us in advance in the way explained below. It is still possible to apply for a Doctoral program as a general student without applying for this system.

<Application period>

November 7 (Thurs) to 14 (Thurs), 2019

The reception of the Academic Affairs Section of Science is available to receive the application documents on weekdays during 10:00 am - 12:00 pm and 2:00 pm - 4:00 pm only (excluding national holidays). If you send them by post, they must arrive no later than the last date of request acceptance period.

<Documents to be submitted>

- Curriculum vitae (*Designated form by the Graduate School)
- Approval Application Form for Adult Working Student (*Designated form by the Graduate School)
- Research interest information sheet (*Designated form by the Graduate School or a form created in accordance with the Graduate school’s designated form)
- Certificate of completion of the last educational program attended or Certificate of expected completion of Master’s Program
- A self-addressed envelope for notification of application approval/rejection (Standard-size, with 374-yen postage stamps affixed [express delivery fee included])

* At the time of application, a certificate of (expected) completion will not be required to be re-submitted.

<Designated form>

To obtain the designated forms, either download from the Graduate School’s website (http://www.se.tmu.ac.jp/entrance_exam.html) or send a request enclosing a self-addressed return-mail envelope (12 cm x 23.5 cm size with an 84-yen postage stamp affixed) to the Academic Affairs Section of Science, Academic and Student Affairs Division of Sciences, Administrative Affairs Department of TMU. Be sure to write down **in red “Request for application documents for adult working student (Doctoral program)”** on the front left side.

<Place for submission>

Academic Affairs Section of Science, Academic and Student Affairs Division of Sciences,
Administrative Affairs Department of TMU

(Send by **registered express mail** and write down in red **“Request for consultation regarding application for adult working student (Doctoral program) enclosed”** on the front left side of the envelope.)

<Notification of result>

Once the application documents are received, a separate notification will be given to only those requiring an interview, etc.

Notification of the screening result will be sent out on **November 29 (Fri), 2019**.

<Application procedure>

Individuals who have received approval in the preliminary consultation shall proceed with the application based on these Guidelines.

* In this regard, this Graduate School adopts the Special Provision on Educational Method stipulated in Article 14 of the Standards for Establishment of Graduate Schools.

6. Long-term study system

This Graduate School has a system in place in which students may complete their course on a pre-planned basis during fixed periods exceeding the conventional number of years of study (3 years for Doctoral program) if they so desire, due to such circumstances as occupation, childbirth, childcare, nursing needs, and the like.

Students permitted to undertake long-term study shall pay the same tuition fees as those paid for the conventional number years of study in installments over the permitted period of long-term study.

<Qualification criteria>

Students who have difficulty completing their courses within the conventional number of years of study due to any of the following reasons:

- (1) Occupation as full-time employee
- (2) Childbirth, childcare, or nursing needs
- (3) Other reasons approved as special circumstances

<Application procedure>

Application information and forms are available to download from the Graduate school’s website (http://www.se.tmu.ac.jp/entrance_exam.html). Send the application together with other required application documents. Be sure to confirm the details in the Application information. Notification of approval/rejection is scheduled to be sent out on the date below.

<Notification of result>

Notification of result is scheduled to be sent out on **February 17 (Fr), 2020**.

- * For details, please contact Academic Affairs Section of Science, Academic and Student Affairs Division of Sciences, Administrative Affairs Department of TMU.

7. Application Procedure

Prior to application, make sure to obtain approval from your prospective thesis advisor.

If the prospective thesis advisor is to retire while you are still in the doctoral program, please confirm with him/her the guidance plan after the retirement in advance.

(1) Application period and place

- Bringing in: **January 15 (Wed), 2020** (10:00 am - 12:00 pm and 2:00 pm - 3:30 pm)
Middle conference room in Building No. 8, Minami-Osawa Campus
- Sending by post: **January 7 (Tue) to 14 (Tue), 2020** (Should arrive on or before the deadline)
 - * Write down in red “**Application documents for the Doctoral program enclosed**” on the front side of the envelope and send by **registered express mail**.
 - * Send the application well in advance considering the days to be delivered.
 - * Be sure to contact us if you haven’t received the exam admission card by **January 21 (Tue), 2020**.

(2) Documents to be submitted

Application documentation	Remarks
(1) Application form Exam admission card Photo card	Use the designated form of this Graduate School. (Also fill out the reverse side of the form.) <ul style="list-style-type: none">• Affix your photo (4 cm in height x 3 cm in width, upper-body, frontal and bare head, taken within the last 3 months of application) in the specified space.
(2) Academic transcript	Issued by the president (dean of the graduate school) of the university attended. (Note)
(3) Certificate of (expected) completion of Master’s program	Issued by the president (dean of the graduate school) of the university attended. (Note)
(4) Master’s thesis or any equivalent work	Submit a thesis abstract alternatively if the Master’s thesis cannot be submitted by the application due date. (Note)
(5) Payment receipt (A part) or Payment certificate (For online payment on the Japanese website)	30,000 Japanese yen (Entrance examination fee) <ul style="list-style-type: none">* <u>The entrance examination fee will not be refunded for any reason once the application is processed.</u>* <u>Applicants who completed a Master’s Program of Tokyo Metropolitan</u>

<p>or</p> <p>Printout of Result page (For online payment on the English website)</p> <p>* Please submit both an original and a photocopy of “Payment certificate” or “Printout of Result page”.</p>	<p><u>University in September 2019 or who are expected to complete it in March 2020 are exempted from paying the entrance examination fee.</u></p> <p>【Payment by using transfer request form】</p> <p>After paying the entrance examination fee, confirm the bank receipt seal on the “Payment receipt (A part)” and paste the receipt on the <u>“Certificate for Fee Payment by Using Payment Slip”</u>.</p> <p>【Online payment (e-payment site)】</p> <p>Those who made the payment on the Japanese website must paste the <u>“Payment certificate”</u> portion of the “Handling statement of entrance exam/screening fee” on the <u>“Certificate for Fee Payment by Using Website”</u>, and those who made on the English website must submit a <u>printout of the “Result page”</u>. In both cases, also submit a photocopy of the original payment certificate.</p>
<p>(6) Return-mail envelope</p>	<p>Those who submit their application by post only.</p> <p>Write your name and address and affix 374-yen postage stamps (express delivery fee included) on a standard-size envelope.</p> <p>(For the Exam admission card to be sent to the applicants)</p>
<p>(7) Request for visa support for enrollment</p>	<p>If any support is required to acquire/renew your visa for enrollment, fill out a “Request for Support Regarding Acquisition /Renewal of Student Visa” and submit it together with application documents.</p> <p>* Please note that support will be provided only for visa acquisition/renewal at the time of enrollment, not at the time of entrance examination.</p>
<p>(8) Certificate of the Japanese government scholarship benefit</p>	<p>Japanese government financed foreign students (through Embassy Recommendation or Domestic Selection) currently enrolled in another university and wishing to proceed to this University must submit their Certificate of the Japanese government scholarship benefit.</p> <p>Confirm with the university currently enrolled for an extension of the scholarship period that will be necessary to proceed to a high-ranking academic program including this doctoral program.</p>
<p>(9) Application form for Long-term study system</p>	<p>To enable the long-term study system to be used upon enrollment, submit the application together with your other application documents.</p> <p>Designated forms and application information can be downloaded from the Graduate school’s website.</p>

(Note)

Applicants who completed a Master’s program of the Graduate School of Science and Engineering/ Graduate School of Science, Tokyo Metropolitan University in or after September 2019 and those who are expected to complete it in March 2020 are exempted from submitting (2) and (3) above.

8. Screening Method for Applicants

Successful applicants are selected on the basis of the results of the oral examination, the content of the Master's thesis (or an equivalent document stating the outline of recent research), and the academic transcript issued by the university graduated from.

- (1) Examination date: **February 5 (Wed), 2020**
- (2) Examination venue: Building No. 8, Minami-Osawa Campus, Tokyo Metropolitan University
* Details will be posted in front of the Science office, Academic and Student Affairs Division of Sciences on the 2nd floor of Building No.8.
- (3) Examination subjects: Mainly oral examination focusing on the specialized subject as below.
(oral examination)

Department	Subject
Mathematical Sciences	Math
Physics	Physics
Chemistry	Chemistry
Biological Sciences	Biology

* Examination timetable is in page 18.

9. Announcement of Result

Date & time: **February 17 (Mon), 2020 at 2:00 pm**

Place: In front of the **Science Office, Academic and Student Affairs Division of Sciences, Administrative Affairs Department of TMU**

A list of successful applicants' numbers will be also posted on the website of the Graduate School of Science (<http://www.se.tmu.ac.jp/index.html>). However, as the website announcement is for reference purpose only, make sure to confirm the result by checking the list posted in front of the Science office. (Please note that telephone inquiries will not be accepted.)

- (1) A letter of Acceptance and other documents will be given to the successful applicants in exchange for the Exam admission card during the period below at the Academic Affairs Section of Science, Academic and Student Affairs Division of Sciences, Administrative Affairs Department of TMU.

Period: **February 17 (Mon) – 21 (Fri), 2020**

10:00 am – 12:00 pm and 2:00 pm – 5:00 pm (2:00 pm – 5:00 pm only on February 17)

- (2) To receive the result by post, request after the oral examination at the Academic Affairs Section of Science, Academic and Student Affairs Division of Sciences, Administrative Affairs Department of TMU by submitting the Exam admission card and a self-addressed stamped envelope (24 cm x 33.2

cm, with 750-yen postage stamps affixed [including fee for the simplified registered express delivery]). Please also write the number of the Examination admission card beside the address on the return envelope.

10. Admission Procedure

Admission documents are scheduled to be sent out in the end of February 2020. Please be sure to complete the admission procedures on the specified day.

Details will be notified after announcement of successful applicants.

11. Admission Fees, Tuition Fees, and Scholarships

(1) Admission fee:

- Residents of Tokyo: 141,000 Japanese yen (Tentative amount)
 - Others: 282,000 Japanese yen (Tentative amount)
- * In the case of revision of admission fee, the new admission fee shall apply.

* **Successful applicants who completed a Master's Program at Tokyo Metropolitan University in September 2019 and are expected to complete it in March 2020 are exempted from paying the admission fee.**

* **A "resident of Tokyo" refers to the one whom he/she, or his/her spouse or first-degree relative has lived in Tokyo continuously for one year or longer (from April 1, 2019) before the day of enrollment (April 1, 2020). The decision for granting certification of "resident of Tokyo" will be made based on the applicant's "Certificate of Items Stated in Resident Register" if the applicant him/herself lives in Tokyo, or in other cases "Certificate of Items Stated in Resident Register" and "Extract of Family Register" of his/her relative living in Tokyo.**

(2) Tuition fee: 520,800 Japanese yen a year (Tentative amount)

- Tuition fee must be paid by account transfer. Students are requested to pay half of the annual amount (260,400 Japanese yen) by way of account transfer in late April and late October.
- In the case of revision of tuition fee in 2019, the new tuition fee shall apply.
- There is a tuition fee reduction/exemption system available.

(3) Scholarships

- Scholarship by Japan Students Services Organization (JASSO)
Scholarship loan is available after enrollment to those whose applications are successfully accepted by JASSO.
- Benefit type scholarships provided by the Graduate school
Following scholarship programs are available to those who are enrolled in a Doctoral program of the Graduate School of Science. (Please note that the scholarship will not be provided to all

applicants, as the selection of applicants is conducted according to the prescribed budget.)

[Research Encouragement Scholarship for Doctoral Program Students]

This is a benefit type scholarship to be provided to outstanding students enrolled in a Doctoral program, aiming to encourage their research by offering an environment where they can devote themselves to their research activities.

<Amount to be provided> 1,800,000 yen/year (150,000 yen /month)

<Benefit period> Up to 3 years after enrollment in a Doctoral program

<Eligible students> Students who fall under both of the following conditions:

- have been accepted to a Doctoral program (including those who plan to enroll).
- applied for Research Fellowship for Young Scientists DC1 to JSPS and were not selected.

<How to apply>

Contact Academic Affairs Section of Science prior to the application period for the Doctoral program. Program details are available on the website of the Student Affairs Division.

[Scholarship in Support of Graduate Students]

This is a benefit type scholarship to be provided to outstanding students enrolled in a Doctoral program, aiming to give them financial support and at the same time to produce highly capable personnel. This scholarship can be received up to three times per student.

<Amount to be provided> 260,000 yen/year (lump-sum distribution)

<Benefit period> 1 year

<Eligible students>

Students being enrolled in a Doctoral program who have achieved outstanding academic and research results

<How to apply>

An individual application is not required, because the Graduate School will select and decide the candidates. Please contact Academic Affairs Section of Science for details.

12. Opportunities to Participate in Education, Training, Etc.

Teaching assistant/research assistant positions and a system that dispatches graduate school students to academic conferences held in Japan and abroad are available.

13. Important Reminders

- (1) Incomplete application documents, etc. will not be accepted.
- (2) No documents submitted will be returned, nor will the entrance examination fee be refunded for any reason after the application has been processed.
- (3) Make sure to bring the Exam admission card on the day of examination.
- (4) If any fraud or other act of dishonesty is found during the entrance examination or in the application

procedure, enrollment will be rescinded even after admission has been granted.

- (5) We do not recommend or introduce accommodations, etc. to examinees.

14. Payment of Entrance Examination Fee

- (1) Payment by using a Transfer request form

- i. Pay the entrance examination fee (30,000 Japanese yen) by bank transfer by using the Transfer request form provided in these Guidelines.
 - * Transfer cannot be made through a post office (Japan Post Bank).
 - * Enclosing a postal money order or cash in the Application Form envelope is not acceptable.
 - * Entrance examination fee cannot be paid through an ATM (automatic teller machine).
- ii. Fill in the necessary information on the “Transfer request form for entrance examination fee” and submit it to a financial institution counter together with the entrance examination fee. The service charge shall be borne by the remitter. In the case of transfer made at the head office or a branch of Mizuho Bank, no service charge is required.
- iii. After transfer, paste the “Payment receipt (A part)” (invalid if there is no a bank receipt seal) on “Certificate for Fee Payment by Using Payment Slip” and submit it together with other application documents.

- (2) Online payment (e-shiharai.net)

Apply for e-shiharai.net (<https://e-shiharai.net/>) in advance and pay either at a convenience store, through Pay-easy ATM/Internet Banking, by credit card, through Alipay international settlement service or UnionPay service. (In the case of payment made outside Japan, only a credit card, Alipay international settlement service, and UnionPay service are acceptable).

For the details of payment method, please refer to “How to Pay the Entrance Examination Fee for the Graduate School of Science of Tokyo Metropolitan University (application from within and outside Japan). The service charge shall be borne by the remitter.

[Payment made on the Japanese website]

After payment, detach the “Payment certificate” portion of the “Handling statement of entrance exam/screening fee,” paste it on “Certificate for Fee Payment by Using Website”, and submit it together with other application documents.

[Payment made on the English website]

After payment, submit a printout of “Result page” together with other application documents.

<Payment period>

January 6 (Mon), 2020 to January 15 (Wed), 2020

(Note) For questions concerning the procedures of e-shiharai.net, please refer to “FAQ (frequently asked questions)” on the website and then contact the e-Service Support Center.

* Applicants affected by any of the following natural disasters shall be exempted from the obligation to pay the entrance examination fee. Please consult with Academic Affairs Section of Science, Administrative and Student Affairs Division of Sciences **before making a bank transfer.**

- Great East Japan Earthquake occurred in March 2011,
- A series of earthquakes occurred in Kumamoto region in April 2016
- A series of torrential rains occurred in the northern part of Kyushu in July 2017
- A series of torrential rains occurred in the Western region of Japan after June 2018
- Hokkaido Eastern Iburi earthquake occurred in September 2018

(Note) A refund request for the Entrance examination fee can be made only if the fee was paid but application documents were not submitted or if it was wire-transferred twice by mistake. For details, see the University's website: http://www.tmu.ac.jp/campus_life/tuition/expenses.html (*Japanese only)

[Go to Top page](#) -> [Admission](#) -> [Graduate school admission](#) -> [Examination, admission, and tuition fee](#)

15. Handling of Personal Information

Tokyo Metropolitan University handles personal information strictly in accordance with laws and regulations as follows:

- (1) Personal information obtained through the admission selection including applicants' name and address, etc. shall be used for the purpose of screening (processing applications, conducting selection, and announcing successful applicants) and admission procedures. Additionally, personal information of enrolled students will be used for the procedures concerning 1) academic affairs (school register, educational guidance, etc.), 2) student support service (healthcare, employment support, tuition fee reduction/exemption, scholarship application, etc.), and 3) clerical work for tuition collection.
- (2) Admission evaluation results gained through the admission selection will be used to prepare documents for future admission selection procedures.

For any inquiries, please contact Academic Affairs Section of Science, Academic and Student Affairs Division of Sciences, Administrative Affairs Department of TMU.

Tel: +81-(0)42-677-1111 (representative) Ext. 3022

E-mail: rikou.r@jmj.tmu.ac.jp

16. Timetable for 2020 Entrance Examination for the Graduate School Doctoral Program

Graduate School of Science, Tokyo Metropolitan University

Department	February 5 (Wed), 2020		Remarks
Mathematical Sciences	10:00 am – 12:00 pm Math (Oral examination)	1:00 pm – 5:00 pm Math (Oral examination)	The oral examination consists of presentation of master's thesis (approximately 15-minute long). Own laptop PC can be used for the presentation.
Physics	9:00 am – 12:00 pm Physics (Oral examination)	1:00 pm – 5:00 pm Physics (Oral examination)	The oral examination consists of presentation of master's thesis.
Chemistry	10:00 am – 12:00 pm Chemistry (Oral examination)	1:00 pm : – 5:00 pm Chemistry (Oral examination)	The oral examination consists of presentation of master's thesis.
Biological Sciences	9:00 am – 12:00 pm Biology (Oral examination)	1:00 pm – 5:00 pm Biology (Oral examination)	The oral examination consists of presentation of master's thesis.

Precautions for taking the entrance examinations:

1. Please make sure to arrive at the exam anteroom 10 minutes before the specified examination time on the examination day. Follow the instructions of the test proctor.
2. Locations of examination venue will be indicated by displays, etc. on the examination day.

17 Introduction of Thesis Advisors, Visiting Professors from Partner Institutions, and Study Fields of the Graduate School of Science

- (1) Professors whose names are marked with “*” are scheduled to retire in March 2020. Those marked with “**,” in September 2020. Those marked with “***,” in March 2021
- (2) Numbers (1), (2), ... on the rightmost column should correspond to the field number written down in the “application field” of the Application Form.
In the case of applicants of the Department of Physics, however, enter only the field number in the first choice column under “application field” of the Application Form and enter only group numbers A to D in the second choice column. (For details, refer to “Important Reminders for Applicants of the Department of Physics.”)
Further, in the case of applicants of the Department of Chemistry, enter at most 4 field numbers from the second choice to the fifth one in the second choice column under “application field” of the Application Form, from the left in the order of preference. (For details, refer to “Important Reminders for Applicants of the Department of Chemistry.”)
- (3) The Graduate School of Science and Engineering has concluded an agreement on a joint graduate school program with research institutes operated by the Tokyo Metropolitan Government, the Institute of Physical and Chemical Research (“RIKEN,” a national research and development agency), the National Institute of Advanced Industrial Science and Technology (“AIST,” a national research and development agency), and Japan Aerospace Exploration Agency (“JAXA,” also a national research and development agency), based on which students can receive research guidance from visiting professors from the partner institutes. The names, study fields, and study descriptions of visiting professors are mentioned separately after the list of this University’s faculty members in each Department. For details, please contact a university faculty member who has the same field number as the visiting professor from a partner institute.

As of April, 2020 (Scheduled)

Mathematical Sciences

Research Field	Thesis Advisor		Research Subject	Field Number
Analysis	Professor	KURATA Kazuhiro	Partial Differential Equations, Nonlinear Variational Problems	1
Algebra	Professor	KURODA Shigeru	Affine Algebraic Geometry, Polynomial Ring Theory	2
Geometry	Professor	SOMA Teruhiko *	Hyperbolic Geometry, 3-Manifolds, Dynamical Systems	3
Analysis	Professor	HATTORI Kumiko **	Stochastic Processes on Fractals	4
Analysis	Professor	YOSHITOMI Kazushi	Partial Differential Equations, Spectral theory	5
Analysis	Associate Professor	SAWANO Yoshihiro	Harmonic Analysis, Theory of Reproducing Kernels, Fourier Analysis	6
Geometry	Associate Professor	TAKATSU Asuka	Differential Geometry, Geometric Analysis	7
Geometry	Associate Professor	FUKAYA Tomohiro	Geometric Group Theory, Coarse Geometry	8
Analysis, Applied Mathematics	Professor	TAKAKUWA Shoichiro	Global Analysis, Partial Differential Equations	9
Algebra	Professor	TSUMURA Hirofumi	Number Theory	10
Algebra, Geometry	Professor	TOKUNAGA Hiro-o	Algebraic geometry, Topology of algebraic curves and surfaces, The Arithmetic of Branched Covers	11
Geometry	Professor	YOKOTA Yoshiyuki	Knot, 3-Manifold, Quantum Invariant	12
Geometry	Associate Professor	AKAHO Manabu	Symplectic Geometry, Floer Theory, Morse Theory	13
Algebra, Geometry	Associate Professor	UEHARA Hokuto	Algebraic Geometry, Classification Theory of Higher Dimensional Varieties, Derived Categories of Coherent Sheaves	14
Algebra, Geometry, Applied Mathematics	Associate Professor	KOBAYASHI Masanori	Algebraic Geometry, Mirror Symmetry, Related Mathematical Sciences	15
Geometry	Associate Professor	SAKAI Takashi	Differential Geometry, Submanifold Theory	16
Applied Mathematics, Algebra	Professor	UCHIYAMA Shigenori	Cryptography, Algorithmic Number Theory	17
Applied Mathematics, Algebra	Associate Professor	YOKOYAMA Shun-ichi	Symbolic Computation, Computational Number Theory, Cryptography	18
Applied Mathematics, Analysis	Associate Professor	ISHITANI Kensuke	Probability Theory, Mathematical Finance	19
Applied Mathematics, Algebra	Associate Professor	UCHIDA Yukihiko	Algorithmic Number Theory, Arithmetic Geometry, Cryptography	20
Applied Mathematics	Associate Professor	SUZUKI Toshio	Theory of Computing, Mathematical Logic	21

Physics

Research Field	Thesis Adviser		Research Subject	Field Number	Group
Particle Theory	Professor	YASUDA Osamu	Physics Beyond the Standard Model, Neutrino Physics	1	A
High-Energy Theoretical Physics	Associate Professor	KETOV Serguei	Quantum Field Theory, Theoretical High Energy Physics, Cosmology	2	
Nuclear Hadron Physics	Associate Professor	HYODO Tetsuo	Hadron Physics, Exotic Hadrons, Theory of Resonances	3	
Theoretical Astrophysics	-	-	-	4	
Nonlinear Physics	Professor	SHUDO Akira	Nonlinear Dynamics, Classical and Quantum Chaos	5	B
Quantum Condensed Matter Theory	Professor	MORI Hiroyuki	Low-Dimensional Systems, Cold Atoms, Quantum Phenomena	6	
	Associate Professor	ARAHATA Emiko	Quantum Gases, Superconductivity, Superfluidity		
Strongly Correlated Electron Theory	Professor	HOTTA Takashi	Theory of Magnetism and Superconductivity in Strongly Correlated Electron Systems	7	
	Associate Professor	HATTORI Kazumasa	Condensed Matter Theory, Strongly Correlated Electron Systems, Quantum Critical Phenomena		
Experimental High Energy Physics	Professor	KAKUNO Hidekazu	Experimental High Energy Physics, Experimental Neutrino Physics	8	C
Atomic Physics	Professor	TANUMA Hajime	Atomic Collisions and Spectroscopy, Electrostatic Ion Storage Ring, Highly Charged Ions, Ion Mobility in Gases, Laboratory Astrophysics	9	
Experimental Astrophysics	Associate Professor	ISHISAKI Yoshitaka	X-ray Astronomy, Observations and Instrumentation	10	
	Associate Professor	EZOE Yuichiro			
Soft Matter Physics	Associate Professor	KURITA Rei	Soft Matter, Phase Transition, Non Equilibrium	11	D
Neutron Scattering and Magnetism	Associate Professor	KADOWAKI Hiroaki	Quantum State of Matter, Neutron Scattering	12	
Correlated Electron Physics	Professor	AOKI Yuji	Topological and Strongly-Correlated Electron Systems, Superconductivity and Magnetism	13	
	Associate Professor	MATSUDA Tatsuma			
Superconducting Material	Associate Professor	MIZUGUCHI Yoshikazu	Condensed Matter Physics, Superconductivity, Functional Materials	14	
Surface and Interface Physics	Professor	YANAGI Kazuhiro	Condensed Matter Physics in Nano Materials, Material Science	15	
Nano-science Research	Associate Professor	MIYATA Yasumitsu	Synthesis of Nanoscale Materials, Electrical and Optical Properties	16	
Affiliated graduate school					
Research Field	Guest teacher	Affiliation	Research Subject		
Strongly Correlated Electron Theory (Field 7)	KUBO Katsunori	JAEA	Theory of Superconductivity and Multipole Ordering Emerging from Multiple Degrees of Freedom		
Experimental High Energy Physics (Field 8)	ADACHI Ichiro NISHIDA Shohei	KEK	High Energy Physics using SuperKEKB collider and Belle II detector, Search for New Physics beyond the Standard Model		
Atomic Physics (Field 9)	AZUMA Toshiyuki	RIKEN	Atomic and Molecular Physics using an Electrostatic Ion Storage Ring, Resonance Coherent Excitation of Highly Charged Heavy Ions		
Astrophysics (Field 10)	ISHIDA Manabu	JAXA	X-ray Astronomy, Observations and Instrumentation		

Chemistry

Research Field	Thesis Adviser		Research Subject	Field Number
Coordination Chemistry	Professor	SUGIURA Ken-ichi	Synthetic Chemistry	1
Environmental and Analytical Chemistry	Professor	TAKEGAWA Nobuyuki	Atmospheric Chemistry, Aerosol, Online Particle Analysis	2
Inorganic Chemistry	Professor	YAMAZOE Seiji	Functional Materials Chemistry, Catalytic Chemistry, X-ray Spectroscopy	3
	Associate Professor	OURA Yasuji	Radiochemistry, Cosmochemistry, Cosmogenic Nuclides	
Organic and Structural Biochemistry	Professor	ITO Yutaka	Solution-State NMR, In-cell NMR, Structural Biology	4
	Associate Professor	MISHIMA Masaki	Biomolecular NMR, Structural Biology, Molecular Biophysics	
Organic Chemistry	Professor	NOMURA Kotohiro	Organometallics, Molecular Catalysis, Organic Synthesis	5
	Associate Professor	INAGAKI Akiko	Organometallics, Molecular Catalyst, Photocatalyst	
	Associate Professor	SATO Soichi	Organic Chemistry, Main Group Chemistry, Material Chemistry	
	Associate Professor	NISHINAGA Tohru	Physical Organic Chemistry, π -Conjugated Molecules, Organic Semiconductors	
Biochemistry	Professor	HIROTA Kouji	DNA Repair, Chromatin, Replication	6
	Associate Professor	TAOKA Masato	Proteomics, RNA, Biochemistry	
Physical Chemistry of Advanced Materials	Professor	KIKUCHI Koichi	Organic Conductors and Superconductors, Chiral Magnets	7
	Associate Professor	KODAMA Takeshi	Physical Chemistry	
Physical Chemistry of Molecular Assembly	Associate Professor	KOMURA Shigeyuki	Physical Chemistry of Biological and Soft Matter	8
Physical Chemistry of Molecular Structure and Reaction	-	-	-	9
Synthetic Organic Chemistry	Professor	SHIMIZU Toshio	Organic Chemistry, Main Group Element Chemistry, Host-Guest Chemistry	10
Theoretical and Computational Chemistry	Professor	HADA Masahiko	Quantum Chemistry, Electronic Structure Theory, Molecular Magnetic Properties	11
	Associate Professor	NAKATANI Naoki	Quantum Chemistry, Electronic Structure Theory, Transition Metal Complexes	
Isotope Chemistry	Associate Professor	KUBUKI Shiro	Chemistry of Glass and Ceramics, Radiochemistry of fullerenes	12
Affiliated graduate school				
Research Field	Guest teacher	Affiliation	Research Subject	
Biochemistry (Field 6)	AIST	FUKUNISHI Yoshihumi	Bioinformatics, Structural biology	
	AIST	NATSUME Tohru	Biomolecular profiling, Drug discovery	

Biological Sciences

Section	Research Field	Thesis Adviser		Research Subjects	Field Number

How to make the Payment for the Examination Fee by Credit Card, Union Pay, and Alipay.

— 24 hours a day, 365 days a year, you can pay anytime! Easy, Convenient and Simple! —

You can pay the Examination Fee by using
Credit Card, Union Pay, and Alipay.

Access

<https://e-shiharai.net/ecard/>

You can access
from our
website too!

Web Application - Online Transaction

1. Top Page

Click "Examination Fee".

2. Terms of Use and Personal Information Management

Please read the Terms of use and Personal Information Management.
Click "Agree" button located in the lower part of this page if you agree with these terms.
Click "Not agree" button located in lower part of this page if you do not agree with these terms.

3. School Selection

Click "Tokyo Metropolitan University (Graduate school)".

4. School Information

Read the information carefully and click "Next".

5. Category Selection

Choose first to fourth selection and add to basket.

6. Basket Contents

Check the contents and if it is OK, click "Next".

7. Basic Information

Input the applicant's basic information.
Choose your credit card and click "Next".

Paying by Credit Card

Input Credit Card Number (15 or 16-digits),
Security Code and Expiration Date.

All of your application information is displayed.
Check and click "Confirm".

Click the "Print This Page" button and print out
the "Result" page.

Paying by Union Pay, or Alipay

All of your application information is displayed. Check and click "Confirm".

Follow the onscreen instructions to complete the card payment.
Please write down the "Receipt Number" given when you
complete your application.

Please click the "Application Results" button in the upper
part of this site (e-shiharai.net).

Input enter your "Payment Method", "Receipt Number"
and "Birth Date".
Please make sure your printer is ready.

Please print out the "Payment Inquiry - Inquiry result" page.

Enclose the printed "Result" page in an application envelope with
other necessary application documents.

Necessary application documents

Mail it from Post office

Application

[NOTICE/FAQ]

- During payment periods and application periods mentioned in the application documents, you can make a payment anytime. Please confirm from application documents and complete payment in time for the application period.
- On the last date of the payment period, please finish card settlement procedure by 11:00pm Japan time.
- Please note that refund is not possible once you have made a payment of Entrance examination fee.

- A fee is added to Examination fee. For further info, please visit our website.
- It is possible to use a card which carries a name different from that of the applicant. However, please make sure that the information on the basic information page is the applicant's information.
- If you did not print out "Result" page, you can check it later on Application Result page. Please enter "Receipt Number" and "Birth Date" to redisplay.
- Please directly contact the credit card company if your card is not accepted.

留学ビザ取得・更新サポート申込書

※在留資格について確認しますので、首都大学東京に入学する留学生は全員この調査票に記入後、出願書類と併せて提出してください。

A : すぐに留学ビザの申請が必要です。合格後入学の意思のある学生に対し、在留資格認定証明書 (COE) を本学が入国管理局へ代理申請します。詳細な手続き及び案内は、入学試験合格後に国際課よりメール連絡します。

B : 「留学」資格に変更を希望される方は在留資格変更手続きが必要です。入学後、合格証明書、授業料支払を行った払込票、在留カード、学生証をもって国際課へ来てください。

C : すぐに在留期間更新手続きが必要です。合格証明書、授業料支払を行った払込票、在留カードをもってお早めに国際課へ来てください。
3 or 9月以前に切れる場合、前の所属機関で更新が必要です。

D : 所属機関の変更手続きが必要です。詳しくは入学後の新入生オリエンテーションでお話しします。

★あなたに該当するのは (A・B・C・D) ABCDに当てはまらない方は下記へお問い合わせください。

COE 交付申請・在留資格の変更申請・在留期間の更新申請は、入国管理局で個別に審査していますので、必ずしも許可が下りるとは限りません。また入学日に間に合わない場合もあります。その場合、首都大学東京は責任を負いません。

STUDENT VISA SUPPORT REQUEST FORM

Please be sure to submit this form along with your admission application documents to the academic affairs office of your desired graduate school (graduate admission) or the Admissions Center (undergraduate). All students are required to submit this form.

Category A: You have to apply for a student visa as soon as possible. If you have the intention to enroll in TMU after passing the entrance exam, you need to obtain a Certificate of Eligibility (COE) for visa application. TMU applies for it to Japan’s Immigration Bureau on behalf of you. The International Affairs Office will contact you to give information about further procedures after you pass the exam.

Category B: For those who want to change your status to ‘student’, you need to apply for a change of the Status of residence. After being enrolled in TMU, please come to our International Affairs Office with your student ID, residence card and the receipt for your tuition payment you made to the University.

Category C: You need to apply for an extension of the period of stay soon. Please come to our international affairs office with your student ID, residence card and the receipt for your tuition payment. If your period of stay is expired before March or September, you have to extend at the previous educational institution/employer.

Category D: You need to change the accepting institution to our university from the previous one. Further information about procedures will be provided at orientation for newly enrolled students.

Which do you fall under, Category A, B, C or D? Those who do not fall under any of the categories please contact us.

(NOTE): Applications for a COE, change of the status of residence and extension of the period of stay are screened case by case, therefore, permission is not always given. There is also a possibility that the permission is not given by the enrollment date. In these cases, TMU is not responsible.

Name (in English alphabets)			
Name (in Kanji if any)
